Job Description

Digby Wells Environmental is seeking enthusiastic and motivated graduates to join our Environmental Internship Programme. This role offers recent graduates an opportunity to gain valuable hands-on experience across various environmental disciplines, working alongside industry experts on real-world projects.

[the_ad id="191"]

Key Responsibilities

- Assist with conducting environmental assessments (EIAs, BA, EMPs)
- Support environmental monitoring and site inspections
- Participate in fieldwork including sampling, biodiversity surveys, and environmental audits
- Conduct desktop research and assist in report compilation
- Work with GIS tools, data analysis, and mapping (as required)
- Support the preparation of technical documentation and presentations
- Learn and apply relevant environmental legislation, policies, and standards

Areas of Exposure

- Environmental Impact Assessments (EIAs)
- Water Resource Management
- Biodiversity & Ecology
- Environmental Compliance Monitoring
- Social and Heritage Impact Assessments
- GIS and Data Management
- Waste and Air Quality Management

Requirements

- South African citizen

- A completed Bachelor’s degree (or in final year) in one of the following fields:
    - Environmental Science / Management
    - Geography
    - Ecology / Zoology / Botany
    - Natural Sciences
    - Environmental Engineering
- Strong academic record and a genuine interest in environmental sustainability
- Excellent verbal and written communication skills
- Willingness to travel and work in the field
- Proficiency in Microsoft Office (Word, Excel, PowerPoint); GIS experience is an advantage
- A valid driver’s license is advantageous

What We Offer

- Mentorship from experienced environmental professionals
- Exposure to diverse projects and clients across sectors
- Practical, field-based and office experience
- Monthly internship stipend
- Professional development and networking opportunities
