Description

Africa Analysis SA Pty Ltd is offering dynamic and highly motivated graduates the opportunity to gain industry experience through its Internship Programmes for 2025. These internship positions provide hands-on exposure to cutting-edge research in the telecommunications, fintech, and media sectors. Interns will work alongside seasoned analysts, gaining valuable insights and mentorship in a collaborative environment based in Pretoria, South Africa.

Available Internship Opportunities:

1. Intern: Telecoms Market Researcher

Minimum Requirements:

- National Diploma or Degree in Commerce, Telecommunications, Media Studies, or a related field.

Key Responsibilities:

- Conduct in-depth market research on industry trends and competitor analysis.
- Compile and write ICT company profiles with both qualitative and quantitative assessments.
- Support the development of research reports and client presentations.
- Assist with data collection, analysis, and report generation.

Skills and Competencies:

- Proficient in Microsoft Word, Excel, and PowerPoint.
- Excellent communication, analytical, and report-writing skills.
- Strong secondary research abilities and attention to detail.
- Ability to manage multiple tasks and meet tight deadlines.

2. Intern: Cloud and Data Centre Market Researcher

Minimum Requirements:

- Bachelor’s Degree or equivalent qualification in a relevant field.
- Prior experience is advantageous but not mandatory.

Key Responsibilities:

- Collect and organise data on emerging technologies, cloud computing, and data centres.
- Source information from various industry publications and reports.

- Support senior analysts in drafting xTech (emerging tech) reports.
- Maintain databases and contribute to presentations and client deliverables.

Skills and Competencies:

- Strong research, data organisation, and analytical skills.
- Intermediate to advanced proficiency in Microsoft Excel and other MS Office tools.
- Excellent written and verbal communication.
- Self-motivated, detail-oriented, and able to work independently.

3. Intern: Pricing Research

Minimum Requirements:

- Diploma or Degree in Telecommunications, Finance, or a related discipline.

Key Responsibilities:

- Capture and maintain accurate pricing data using Excel and online tools.
- Assist in developing pricing databases and generate insights for reports.
- Support data analysis efforts using Excel PivotTables and tools like Power BI.
- Participate in stakeholder interviews and contribute to client reporting.

Skills and Competencies:

- Basic knowledge of data analytics and pricing tools such as Power BI or Tableau.
- Proficient in Microsoft Word, Excel, PowerPoint, and other data platforms.
- Strong numeric ability and attention to detail.
- Ability to manage multiple projects and work independently.

Benefits of the Internship:

- Hands-on experience with industry-specific research and analysis.
- Exposure to telecommunications, fintech, and media sectors.
- Mentorship and guidance from experienced professionals.
- Opportunity to develop and refine technical and soft skills.

How to Apply:

Interested candidates should submit their CVs via email to: ofentse@africaanalysis.co.za

Important: Please include the specific internship title (e.g., Intern: Telecoms Market Researcher) in the subject line of your email.

Closing Date for Applications: 30 June 2025

Seize this opportunity to grow your career with Africa Analysis SA and make a meaningful contribution to the ICT and research sectors in South Africa.
