Description

Deloitte, one of the world's leading professional services firms, is inviting suitably qualified and unemployed South African graduates to apply for the highly sought-after Deloitte InfinityX Consulting Services Graduate Internship Programme 2026. This graduate internship opportunity is based in Midrand, Gauteng, and is ideal for ambitious young professionals who want to make a meaningful societal impact, drive real business value, and contribute their skills within a globally recognised organisation.

Through the InfinityX Graduate Programme 2026, successful candidates will be placed in a dynamic, fast-paced consulting environment that prioritises continuous learning, innovation, and limitless career growth. If you are a recent graduate searching for graduate internships in South Africa 2026, this is one of the most prestigious and well-structured programmes currently open for applications.

What the Programme Offers

The InfinityX Graduate Programme is structured around five core pillars that set it apart from a typical internship in South Africa:

1. Exceptional Learning & Development Graduates engage with diverse projects across multiple industries and client types. Both informal and formal training are available, along with access to Deloitte's global learning resources — ensuring your skills grow from day one.
2. Supportive Culture & Mentorship The programme places graduates within a collaborative, open environment where fresh ideas are welcomed. Each graduate is supported by a dedicated coach and a buddy system, backed by an entire team of experienced professionals who guide your career journey.
3. Meaningful, High-Impact Work From your very first day, you will contribute to significant client projects. This is not a background-role internship — graduates at Deloitte are empowered to drive positive change and deliver measurable value to real clients.
4. Global Exposure & Networking Gain access to international best practices through Deloitte's expansive worldwide network. You will have the opportunity to connect and collaborate with professionals across the globe, building a truly international professional profile.
5. Career Growth & Competitive Remuneration InfinityX graduates work alongside industry-leading consultants, positioning themselves as highly sought-after professionals renowned for global excellence. The programme comes with competitive remuneration and clear pathways for long-term career progression.

About the InfinityX Graduate Programme – Teams & Focus Areas

The InfinityX graduate team is embedded across **Deloitte's Consulting Services** business. Depending on your background, you may be placed in one of the following

specialist teams:

Strategy & Transactions — Expert consulting on business strategy, mergers and acquisitions, valuations, restructuring, and sustainability.

Enterprise Risk Management — Using mathematics and statistics to analyse and predict financial, regulatory, and operational risks. Graduates here help turn risk management into a competitive advantage.

Customer Team — Leveraging technology and creativity to help clients innovate their business models and build lasting relationships with customers and employees.

Cyber Team — Helping clients protect critical assets and systems in an evolving cyber threat landscape, covering crisis prevention, recovery, and secure innovation.

Engineering, AI & Data — Unlocking the power of data through analytics, robotics, and AI to improve organisational decision-making, efficiency, and risk management.

Enterprise Technology & Performance — Digitising and modernising business operations across finance, supply chain, and IT to enhance employee experience and societal impact.

Finance Transformation — Modernising finance functions, improving financial performance, streamlining operations, and preparing organisations for sustainable growth.

Human Capital — Helping organisations rethink workforce and people strategies, enabling agility and a meaningful impact on both employees and society.

Minimum Requirements

Deloitte welcomes applications from graduates across a wide range of disciplines. Eligible qualifications include, but are not limited to:
