## FNB App Academy Programme 2026 Applications Open in South Africa

### Description

Are you passionate about technology, coding, and software development? The First National Bank (FNB) App Academy Programme 2026 is now accepting applications from aspiring young innovators across South Africa. This free online coding programme is designed to equip students, graduates, and unemployed youth with in-demand digital skills needed to succeed in the modern technology industry.

Since its launch, the FNB App Academy has empowered more than 17,000 young people by providing practical training in coding, app development, UX design, artificial intelligence, and software engineering. Whether you are a beginner or looking to advance your programming knowledge, this programme offers a structured learning path to help you build real-world tech skills.

First National Bank (FNB) is one of South Africa's leading financial institutions, committed to innovation, digital transformation, and youth empowerment. Through initiatives such as the App Academy, FNB continues to invest in developing future technology talent by providing accessible and industry-relevant digital education opportunities.

The FNB App Academy is a free online coding programme that teaches participants how to develop modern applications using JavaScript and React while also building valuable workplace and entrepreneurial skills. The curriculum is divided into Beginner, Intermediate, and Advanced levels, allowing learners to progress at their own pace and gain practical experience through hands-on projects.

### Key Responsibilities

Participants enrolled in the programme will:

- Complete online coding and software development modules.
- Learn JavaScript programming fundamentals.
- Build web and mobile applications using React.
- Participate in practical coding exercises and projects.
- Develop UX design and design-thinking skills.
- Learn GitHub collaboration and version control practices.
- Explore AI applications in software development.
- Create and manage real-world app development projects.
- Gain exposure to backend development, APIs, and Firebase.
- Apply business and entrepreneurship principles to technology solutions.

### Requirements

To qualify for the FNB App Academy Programme 2026, applicants should:

- Be interested in coding and technology.
- Have a willingness to learn digital and software development skills.
- Possess basic computer literacy.
