Sandvik Graduate Internship Programme 2026

Description

Sandvik is offering exciting Graduate Internship opportunities for 2026, designed to provide hands-on experience, professional exposure, and meaningful learning across key business functions. This programme is ideal for recent graduates who are eager to apply their academic knowledge in a real-world environment while building a strong foundation for their professional careers. You will join a collaborative, data-driven organisation that values continuous improvement and innovation, contributing to real projects that help shape the future of Sandvik's business operations.

What You Can Expect

As a Graduate Intern, you will:

- Gain practical exposure to business operations, financial processes, supply chain systems, and analytical tools.
- Work alongside experienced professionals and mentors in a dynamic and supportive environment.
- Contribute to efficiency improvements, cost optimisation, and performance enhancement initiatives.
- Develop professional skills in data analytics, business reporting, and structured problem-solving.
- Participate in structured learning and development programmes to accelerate your growth and career readiness.

Areas of Placement

Graduate Interns may be placed in one of the following areas:

- Sales and Service Operations: Process improvement, performance reporting, and business optimisation.
- Finance & Accounting: Budget analysis, reconciliations, financial reporting, and cost control.
- Supply Chain Management: Procurement, logistics, demand planning, and supplier management.

Minimum Requirements

- Bachelor's Degree or National Diploma in one of the following fields:
 - Industrial Engineering
 - Finance
 - Accounting
 - Supply Chain
 - Logistics
 - Data Science
 - Computer Science
 - Statistics
